### EXPERIENCE – EDUCATION

Oct 2014 - now	<b>Associate Professor, permanent position at the Parma University, Department of Chemistry, Life Science and Environmental Sustainability Parma, Italy.</b>
2010 - 2014	Researcher, permanent position at the <b>Parma University</b>
2007 - 2010	Grant at the <b>Parma University</b> , Department of Earth Science, Parma, Italy.
2003 - 2007	Researcher position at the <b>Parma University</b> , Department of Earth Science, Parma, Italy.
2002 - 2003	Grant at the <b>Parma University</b> , Department of Earth Science, Parma, Italy.
2001 - 2010	Applied geologist at the <b>Emilia Romagna Region</b> . Technical Survey, Modena, Italy.
1998 - 2001	<i>Ph.D. in sedimentology at the <b>Bologna University</b> « Physical stratigraphy, microscopic sedimentological analysis and magnetostratigraphic characterization of the deposits related to the Messinian salinity crisis»</i>
1997 -	Degree at the <b>Bologna University</b> «facies analysis of the Messinian post-evaporitic unit, mostly siliciclastic coarse-grained fluvio-deltaic deposits, of the eastern Romagna Apennines»

### RESEARCH INTERESTS, KEY WORDS

Messinian salinity crisis / Evaporite sedimentology / Geobiology / Gravity flow sedimentology / Turbidites / Integrated Stratigraphy / Paleomagnetism / High-frequency cyclostratigraphy / Isotope geochemistry / evolution of the Apennine-Maghrebian orogen / Hydrogeological hazards  
Integrated monitoring systems / Mars sulphates

*Prof. Vinicio Manzi, PhD*

*Sedimentary geologist, Stratigrapher and Sedimentologist*

*Department of Chemistry, Life Sciences and Environmental Sustainability - University of Parma*

*Plesso di Scienze della Terra - Parco Area delle Scienze 157/A - 43124 Parma (PR), Italy*

## RESEARCH LINES

The main researches have been focused on the Messinian salinity crisis, one of the most amazing geological issues. The complexity of this scientific problem has been faced through multidisciplinary studies comprising:

- **Messinian salinity crisis**, complete revision of the chronostratigraphic framework for the Messinian salinity crisis in the Mediterranean (e.g. CIESM, 2008; Gennari et al., 2013; Manzi et al., 2013; 2016; 2018; Roveri et al., 2008;)
- **sedimentology of the evaporites**, facies analysis of sulfate, carbonate and halite deposits, both primary and clastics (e.g. Lugli et al., 2007; 2010; 2013; 2015; Manzi et al., 2005; 2009; 2016; Roveri et al., 2008)
- **geomicrobiology of the evaporites** relationships between evaporites and microbial communities (e.g. Panieri et al., 2008; 2010; Dela Pierre et al., 2014; Isaji et al., 2017)
- **sedimentology of hybrid deposits**, facies analysis of mixed evaporitic-terrigenous and gypsumiferous-carbonate deposits (e.g. Manzi et al., 2011);
- **integrated stratigraphy**, integrated analysis based on physical stratigraphy, cyclostratigraphy, biostratigraphy, magnetostratigraphy, sequence stratigraphy (e.g. Manzi et al., 2007; 2016; Roveri et al., 2008; 2009)
- **isotope geochemistry**,  $^{13}\text{C}$ ,  $^{18}\text{O}$ ,  $^{34}\text{S}$ ,  $^{87}\text{Sr}/^{86}\text{Sr}$ ,  $^{187}\text{Os}/^{188}\text{Os}$  isotopes of evaporites and associated deposits (Kuroda et al., 2016; Lugli et al., 2007; 2010; Reghizzi et al., 2017; Roveri et al., 2014)
- **high frequency cyclicity on evaporites**, study of the short-term modulation of evaporite deposits (Manzi et al., 2012)
- **paleomagnetism**, magnetic properties of sediments for integrated stratigraphy (e.g. Gennari et al., 2013; Manzi et al., 2007)
- **siliciclastic sedimentology**, facies analysis on shelf and fluvio-deltaic siliciclastic deposits (e.g. Bassetti et al., 2004; Manzi, 1997; Roveri et al., 2008)
- **Mars sulphate**, providing Earth analogs for interpretation of evaporites on Mars (e.g. Sgavetti et al., 2008)
- **turbidites**, facies analyses and basin analysis on the Marnoso-arenacea (Miocene, Northern Apennines) and Laga (Messinian, Central Apennines) turbiditic systems (e.g. Roveri et al., 2002)

## ASSIGNMENTS – TEACHING

2011	- now	Teaching Class: Geological mapping (12 CFU) – First Cycle Degree in "Geological Science" at the University of Parma
2014	- now	Member of the Paritetal Commission for the First Cycle Degree in "Geological Science" at the University of Parma
2017	- now	President of the Paritetal Commission of the Department of Chemistry, Life Science and Environmental Sustainability, University of Parma
2010	- now	Member of the College of Teachers the PhD in Earth Science at the Parma University
2012	- now	Scientific Manager of the Parma University at the "Centro Interuniversitario di Magnetismo delle Rocce - Alpine Laboratory of paleomagnetism (ALP)" Via Madonna dei Boschi 76, - 12016 Peveragno (CN), Italy.
2013	- 2016	Member of the College of Teachers of the Spinner 2013 PhD; EGEST projects "Geological surface effects of the 2012 Emilian earthquake"

*Prof. Vinicio Manzi, PhD*

*Sedimentary geologist, Stratigrapher and Sedimentologist*

*Department of Chemistry, Life Sciences and Environmental Sustainability - University of Parma*

*Plesso di Scienze della Terra - Parco Area delle Scienze 157/A - 43124 Parma (PR), Italy*

*Tel: +39 521 905351 - Fax: +39 521 905354 - e-mail: [vinicio.manzi@unipr.it](mailto:vinicio.manzi@unipr.it) skype: vinicio.manzi*

## AWARDS, HONORS, NOTEWORTHY FACTS

- Award of the National Scientific Qualification 2016 (**ASN – Abilitazione Scientifica Nazionale**) as **Full Professor**. Validity: from 2017 April 5th to 2023 April 5th.
- **Norman Falcon Award 2017.** Roveri et al. (2016) The Messinian salinity crisis: open problems and possible implications for Mediterranean petroleum systems. *Petroleum Geoscience*, 22-4, 283-290.
- **Marine Geology most cited paper published since 2012 and amongst the 3 most cited papers published in 2014 and cited in 2015-2016.** Roveri et al. (2014) The Messinian Salinity Crisis: Past and future of a great challenge for marine sciences. *Marine Geology*, 352, 25-58.
- **Terra Nova most cited article published in 2013 or 2014 (source ISI Web of Science).** Manzi et al. (2013) Age refinement of the Messinian salinity crisis onset in the Mediterranean. *Terra Nova*, 25, 315-322.
- **Basin Research 10<sup>th</sup> most-accessed articles published in 2015 and 2016.** Manzi et al. (2016) The Messinian salinity crisis in Cyprus: a further step towards a new stratigraphic framework for Eastern Mediterranean. *Basin Research*. 28, 207-236.
- **Marine Geology 15<sup>th</sup> most cited paper.** Roveri et al. (2014) High-resolution strontium isotope stratigraphy of the Messinian deep Mediterranean basins: implications for marginal to central basins correlation. *Marine Geology*, 349, 113-125.

## PARTICIPATION TO NATIONAL AND INTERNATIONAL PROGRAMS

2018 - now	Collaboration on behalf of the Protocol of International University Cooperation for Educational and Scientific Purposes between the University of Parma and the Polytechnic University of Tirane (Albania)
2016 - 2017	Member of the Management Committee - COST Action CA15103 "Uncovering the Mediterranean salt giant (MEDSALT).
2015 - 2017	ANR MRSEI 2015 - Uncovering the Mediterranean Salt Giant Principal Investigator: Giovanni Aloisi, CNRS, Laboratoire d'Océanographie et du Climat, Expérimentations et approches numériques Boîte 100 - PARIS, France.
2014 - 2017	PETROBRAS Project "Sedimentology and stratigraphy of evaporitic deposits (Messinian salinity crisis, Mediterranean Basin)." PI: M. Roveri, Univ. of Parma.
2013 - 2014	Main Proponent of the ECORD/ICDP Magellan Plus Workshop Series Program Deep-sea Record of Mediterranean Messinian events: DREAM I and DREAM II.
2011 - 2014	THALIS program "The record the Messinian Salinity Crisis in the Eastern Mediterranean: causes and palaeoenvironmental impact and consequences." PI: V. Karakitsios. National And Kapodistrian University Of Athens
2009 - 2011	PRIN2008 Project "High-resolution stratigraphy, palaeoceanography and palaeoclimatology of the Mediterranean area during the Messinian salinity crisis" PI: M. Roveri, University of Parma.
2007 - 2009	PRIN2006 Project "Origin, timing and facies distribution of the Messinian Salt deposits in the basins of the central Mediterranean area (Sicily, Calabria and Tuscany) and their larger-scale implications for the Messinian salinity crisis" PI: M. Roveri, University of Parma.
2005 - 2007	PRIN2004 Project " La tettonica del sale in vari contesti geodinamici, interpretazione sismica, analisi stratigrafiche, strutturali, petrografiche-sedimentologiche e modellizzazione analogica: casi di studio del cuneo orogenico della Calabria ionica, Bacino Balearico, Tirreno, margine NW dell'Africa, Zagros-Golfo Persico" PI: E. Costa, University of Parma.
2004 - 2006	PRIN2003 Project "The late Messinian Lago Mare event: high-resolution stratigraphy, tectonic and climatic control on high-frequency paleoenvironmental changes related to the final stage of the Messinian Salinity Crisis of the Mediterranean area" PI: M. Roveri, University of Parma.
