Control the Instrument Using the NanoDrop PC Control Software

Install and run the NanoDrop PC software

Navigate to thermofisher.com/nanodropsw and follow the instructions to download the NanoDrop One PC control software. Unzip the folder, launch **Start.exe**, and click on **Install** to proceed through the installation process.

Connect an Ethernet cable (not supplied) to the Ethernet port at the rear of the NanoDrop instrument.

Ethernet connected to NanoDrop Instrument

Connect the cable to the computer's network port. Alternatively, connect the Ethernet cable to an Ethernet-to-USB adapter (not supplied), and connect the instrument to the computer's USB port.

Ethernet connected to the PC

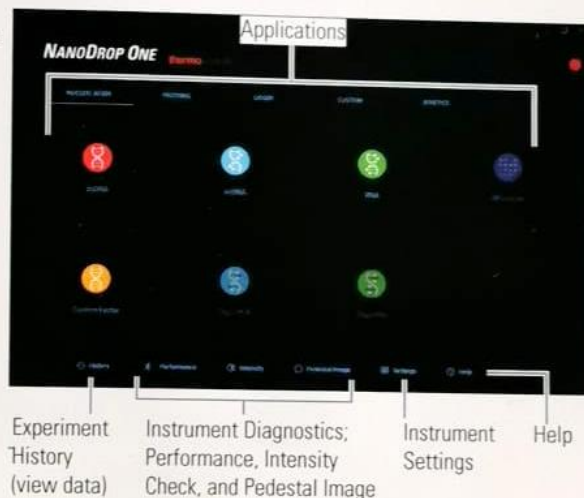

Ethernet from NanoDrop Instrument connected to the PC USB port using an Ethernet-to-USB adapter

With the instrument connected to a PC and turned on, launch the NanoDrop One PC software.

PC Software Home Screen

From the Home Screen, you can select a method type from the available applications.
